

WE ARE SPACEBOY

Designing what doesn't yet exist.

Our creative studio brings together storytelling, design, and technology to build visual experiences that make a real impact.

From cinematic narratives and wide-reaching campaigns to video games, immersive environments, and extended realities, we develop concepts that evolve into entire worlds.

Through our work, we design visual systems and experiences that expand the ways in which brands and audiences connect.

OUR PARTNERSHIPS

We believe that the most powerful ideas are born when art and technology work together.

ZEISS

EPIC
GAMES

 Tecnológico
de Monterrey

QUByte
VICON

 Anáhuac
México

Our studio was the first in Mexico to
acquire the VICON motion capture
system.

Together with institutions that share
our vision, we support new generations
of creators.

ORIGINAL STORIES

We develop our own narrative worlds.
Short films that explore emotion, aesthetics, and new forms of storytelling.

23 LAURELS

31 LAURELS

84 LAURELS

IN COMPETITION

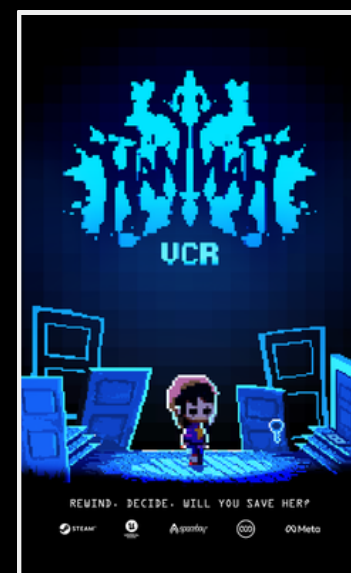

IN COMPETITION

Our projects have been selected and awarded at international festivals
for their narrative and visual expression.

VIDEO GAMES

We create interactive worlds where storytelling and gameplay come together to form unique experiences.

Our video games are available on international platforms.

Build From Inside
CDMX / California

Curiosity drives us.
Passion defines us.
Imagination guides us.

The future of entertainment isn't just something to watch.
It's something we build from inside.

BUILD FROM INSIDE

The best experiences haven't been created yet.

Let's build them together.
